INFORMATION
BULLETIN
503
MAY 2005

This Information Bulletin lists fees and deposits for development permits and policy approvals. Additional fees/deposits will be required for any subsequent ministerial approvals (e.g., building permits, public right-of-way permits). For project submittal requirements, see Land Development Manual Project Submittal Requirements, Section 4.

I. DEPOSIT ACCOUNTS

The plan review of development permits and policy approvals requires a deposit into a Trust Fund account. A Trust Fund account is established with an initial deposit (see Section IV). This initial deposit is drawn against to pay for the review of your project. During project review, the Financially Responsible Party (as identified on the General Application form) will receive a monthly deposit statement reflecting the charges made against the account.

The Financially Responsible Party may receive invoices for additional deposits for subsequent reviews of the project in order to maintain the minimum balance as shown in Section IV. The payment of this invoice will be required in order to continue processing your project. At the end of the project, any remaining funds will be returned to the Financially Responsible Party.

II. COMPLETENESS REVIEW

It is necessary to evaluate all projects being submitted to ensure that all of the required information is provided to review the project. This is known as the completeness review. In most cases the completeness review for development permits/approvals will require submittal of one copy of all plans/documents as identified in the Land Development Manual Project Submittal Requirements, along with a minimum deposit for the Completeness Review. Once it is determined that your submittal is complete, staff will collect the required fees and deposits when your application is fully submitted (see Sections III, IV).

Completeness Review \$1,000 Deposit

III. PROJECT FEES

The following fees are paid at the time plans are fully submitted to Development Services for plan review. These fees are in addition to the deposit required for the processing of the project.

B. Substantial Conformance Review

Substantial Conformance Review (SCR) is a voluntary service available to customers who are proposing to modify their project after a discretionary permit has been approved by the City. This service is offered to allow customers to provide only the information needed to make a conformance determination, without having to go to the expense of preparing complete construction documents. The process does not include a

review for conformance with other City regulations, which is performed when an application for a construction permit approval such as a building, grading, or public improvement permit is made. Information Bulletin 500, "Substantial Conformance Review" describes the minimum submittal requirements, fees and procedures associated with this program.

C. Preliminary Review

This service helps you obtain the answers that you need to determine the feasibility of your development project and to be successful in submitting the project for review. Through preliminary review, you can obtain general information on the regulations with which your project must comply, find out which permits you must obtain, the review process that applies to your development, and obtain interpretations on how the City will apply code provisions to specific situations. Information Bulletin 513, "Preliminary Review" describes the minimum submittal requirements, fees and procedures associated with this program.
